DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Morgan S. Heller II (Reg. No. 44756) on 06/29/06.

The application has been amended as follow:

Claims 14-20 have been canceled.

Election/Restrictions

This application contains claim groups directed to the following patentably distinct species of the claimed invention:

- | Group | Invention |
|-------|---|
| I. | Claims 1-13, drawn to method of placing a integrated circuit macro in a floor plan. |
| II. | Claims 14-20, drawn to a CAD system. |

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 2825

During a telephone conversation with Mr. Morgan S. Heller II on June 29, 2006 a provisional election was made without traverse to prosecute the invention of group I, claims 1-13, and cancel group II. Claims 14-20.

Claim 1 line 4, deleted "and".

Claim 1 line 7, after " another " insertion --; and

d) generating a first edge constraint vector corresponding to said at least one edge of the first integrated circuit macro and generating a second edge constraint vector corresponding to said at least one edge of the second integrated circuit macro--.

Claim 3 has been canceled.

Claim 4 line 1, change "claim 3" to --claim 1--.

Claim 8 line 6, deleted "and".

Claim 8 line 9, after " another " insertion --; and

c) instructions for generating a first edge constraint vector corresponding to said at least one edge of the first integrated circuit macro and generating a second edge constraint vector corresponding to said at least one edge of the second integrated circuit macro--.

Claim 10 has been canceled.

Claim 11 line 1, change "claim 10" to --claim 8--.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

1. Claims 1, 2, 4-9, and 11-13 are allowed because the prior art does not teach or suggest a method of placing a first integrated circuit macro in integrated a floor plan containing at least one second the steps of: generating a first edge constraint vector corresponding to said at least one edge of the first integrated circuit macro and generating a second edge constraint vector corresponding to said at least one edge of the second integrated circuit macro with the combination of all other features corresponding to the independent claim.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
